

Rapid Response Defense Systems Selects Quantum-Systems Inc. as Subcontractor for U.S. DoS Mid-Range UAS IDIQ Contract

- *RRDS awarded \$30 million Mid-Range UAS IDIQ contract by U.S. Department of State (IDIQ Contract #19AQMM23D0091) and subcontracts to Quantum-Systems Inc.*
- *Quantum-Systems Inc. to provide Vector fixed-wing eVTOL sUAS over five-year period as part of subcontract agreement.*

MOORPARK, Calif., Aug. 29, 2023 – [Rapid Response Defense Systems, Inc.](#) ("RRDS"), a federal contractor and solution-based systems integrator, today announced that [Quantum-Systems Inc.](#), a leader in electric vertical take-off and landing (eVTOL) aerial intelligence solutions, has been selected as the subcontractor for the \$30,000,000 indefinite-delivery, indefinite-quantity (IDIQ) contract awarded to RRDS by the U.S. Department of State to provide mid-range unmanned aircraft systems (UAS).

The RRDS and Quantum-Systems team will deliver Vector fixed-wing eVTOL sUAS over the course of 5 years and will provide operator training to end users.

Fred Bouman, SVP - Federal at RRDS commented, "We are honored to collaborate with Quantum-Systems as our trusted partner for this significant U.S. Department of State program. Their expertise in unmanned aircraft systems aligns seamlessly with our commitment to delivering cutting-edge technology to meet the evolving needs of our customers. This partnership marks another stride forward in our mission to provide comprehensive solutions that enhance security and intelligence capabilities on a global scale."

"We're excited to team up with RRDS to equip and support the customer in their law enforcement and security missions with our mid-range aerial intelligence and reconnaissance solution, Vector," said David Sharpin, CEO of Quantum-Systems Inc.

ABOUT QUANTUM-SYSTEMS INC.

Quantum-Systems Inc. specializes in the development, design, and production of fully autonomous small unmanned aircraft systems (sUAS). Headquartered in Moorpark, CA, Quantum-Systems Inc. has combined electric vertical take-off and landing (eVTOL), automatic transitioning and AI edge computing capabilities to create a portfolio of sUAS with best-in-class endurance and reliability, and uncompromised actionable intelligence.
